## **OHUSC Elementary Facility Study**

The 2010 study of Oak Hill elementary buildings, properties and programs has reached the point of seeking community input.

The E4 Committee (Eagles for the Enhancement of Elementary Education) invites community members to join them on Monday, Sept. 13 or Thursday, Sept. 16 at 7 PM in the OHHS Cafeteria.

We are encouraging all adult community members to come out and participate as we consider the current state and future of our Elementary School Facilities, Properties, and Programs.

Each of these two meetings will have an identical agenda, format, presentation of information and opportunities to participate. (it is not necessary for a person to attend both meetings ... but they are welcome to do so if they wish)

The meetings will feature a presentation of relevant study / assessment data and information followed by two opportunities for the community to provide input. Both methods of community input will generate valuable data and perspective for our E4 Committee to consider.

The first method of community input will be “small group round table discussions” geared toward building a consensus concerning priorities.

Secondly, there will be a “group survey” of community members conducted using technology that will provide instant results. Individual participant answers will remain anonymous.

A second round of Community Meetings will be held on October 27 and 28.

Anyone needing further information should contact Superintendent Joel Martin at the administration office.
